422 Tax Deductions For Businesses And Self-Employed Individuals (475 Tax Deductions For Businesses & Self-Employed Individuals)

Synopsis

Fully revised and updated, this guide is aimed at all businesses, independent professionals and contractors, freelancers, and home and Internet businesses. The hundreds of tax breaks listed are not loopholes or questionable areas of the law, but legitimate business deductions that accountants forget to ask their clients about or that the IRS chooses not to mention on its tax forms.

Customer Reviews

At first I thought, "What an odd sort of book." In other words, you don't exactly "read" it. There's an introduction, of course. But it's actually a book that allows you to look up anything you might consider or wonder about being a possible deduction. It will tell you if it is or not. Little did I know I could deduct my guard dog and her upkeep! Of course, how will I prove she's a guard dog and not a pet? But, I digress. Another feature of the book that I absolutely love is the fact it tells you exactly what category an item goes under. Now you may have no problem with this one at all. Boy, I do. I may know something is deductible. But where the --- do I put it? When I first started deducting website hosting and Internet, now many years ago, I had not the foggiest where to categorize it in Quickbooks. Fact is, probably no one knew when I got my start in the early nineties. I was the first copywriter online. I think until I got this book I was still doing it wrong. It wouldn't have affected my bottom line. But one does like to put things in the right place and the book does tell you that too much if anything in the miscellaneous category is a big flag to the boys and girls we pay to give us pain at the IRS. This book is really a must-have to the self-employed -- regardless of whether we

work alone in our home or have a shop or outside office or retail establishment. Finding out the coffee I buy and drink in my office eased the pain somewhat. I drink lots of coffee. Highly recommended.-- Susanna K. Hutcheson

This book a friend introduced me to during a travel party and said its a book we all should purchase. I browse through it and found it to be quite helpful from a business perspective and decided to order my own. It relates all the items one can deduct honestly during tax preparation. I thought what a great book and the outline it gives that one cannot go wrong. What I like best is that the book is good for everyone, no one should make mistakes with their tax preparation and then be audited by IRS. I have encouraged my sister and friends to get a copy of 422 Tax Deductions, its speaks for itself so pick up a copy for the next tax season and know the right deductions.

Well actually just a few really good reasons to buy this book. I had an earlier version of this book and this is bigger and better. By far and away it is the best book of its type. For the experienced business person or a new start up. It brings the word of taxes, deductions, and expense accounting down to an easily read and even more importantly, easily understood format. This book is an invaluable resource for keeping your tax obligations to a minimum and making your business more profitable.

I have the previous edition of this book, which I found quite resourceful so this edition was even better. Kamoroff expanded in further detail about specific tax deductions. Everything is written in plain-English and is easy to understand. I'm actually a tax professional and like to use this as a quick reference/handbook sort of purpose. It serves my needs well so I know it would serve the needs of the average consumer who may be wanting further info if they have questions about what's tax deductible for their small business. You can send any questions to me at hardgeconnections@gmail.com.

This book didn't hold my attention very long. I figured instead of learning all this stuff I'd keep good records and take the information to an accountant.

Very helpful

Easy to understand, laid out well for the non accounting type of person. Also, they give yearly

updates for free, which is a gift that just keeps on giving! Thanks!

This book is clearly for people in business for themselves. But remember laws change every year, so make sure to get a yearly update.
