Customer Reviews

This poster arrived with another poster. The laminated one was in a poster roll. It was fine. This one was in a GIANT box and the roll was inside it. From the same seller. This poster came a crinkled ruined mess. Unbelievable and such a waste of a cardboard box. It's like throwing your money away and killing a tree, for what? It's going into the trash. Totally ridiculous. As for the actual content of

the chart. It's ok and would have worked for my needs. But I cannot work with a bent up mess like this.

Chart is great! I deducted stars because it was folded and shipped in a box.

Great poster.... somewhat self-explanatory, nothing was different from the picture shown. And that is why it receives a 9.4!

Working Great as a Study Chart for Our Sons College Courses...

The chart is very well written, thorough diagram. Nice illustration. Will make a very nice addition to our orthopedic department

Great educational aid.

Great item

My chart / poster came folded, instead of rolled I will be sending it back
