We used this book in homeschool kindergarten when my daughter was learning to count to 100. The thing that's nice and different about this book is that the dot-to-dot pictures are actually illustrations in the book length story. Now admittedly the story being told isn't great literature. But it's certainly entertaining enough and kept my little one interested to see what was going to happen next. I had her connect the dots, then we'd read the story for that day, then she would color in the picture. Very enjoyable and a good choice for little ones learning to count and working on fine motor skills.

Another nice dot to dot that my adult brother can do easily with no problem. He has problems with some of the dot to dots made for adults. Keep making more.

Dot to dot or follow the dots are so hard to find anymore and this was a great gift for my granddaughter. She loves to do these puzzles and I spent months looking for them. I will be buying more from this series. Good learning tool.

second copy, purchased for a second child; they just wish there were more like this one

Our Kindergardener really likes this follow-the-dot book. It was just challenging enough for her but not too difficult. I think it really helps her review counting. We have given a copy of this to her teacher for use in the classroom.

It is difficult to find a follow the dot book that is challenging for a child over the age of 7. My daughter was thrilled with this follow the dot book because each puzzle has an average of 100 dots to follow and it is impossible to tell what the picture is until the puzzle is completed. After the follow the dot activity is completed each picture may be colored. There is an interesting story that the child may read as they complete the book. This book contains many hours of entertainment for the child for a very small price. Compared to other follow the dot books we have purchased, this book was by far

the most interesting and time consuming. I wish there were more advanced follow the dot books like this on the market!

I got my first dover coloring book about 30 years ago and have been hooked. I now have a collection of about 20. They are kind of hard to find in retail and when you do the selection is poor. I find coloring to be very relaxing when you are stressed. I also cannot just watch tv I like to be doing crochet or cross stitching, coloring. These books are very well done as far as the drawings are concerned. They can be very intricate. Some are made more for children but many would be hard for a child under say 10yrs old to do and feel good about. They are best done with colored pencils as you can get really good at shading and make them really pretty. I highly recommend this and many others. I do own this specific book.
