The board book version of this popular recitation of animal characteristics is equally as delightful as other editions, with one key improvement: it's inedible. This robust reissue follows lovable Lloyd the llama on his quest to find out what percentage of the baby animal population has llamas for mamas. The rhymes are original and infectious, and the riddles are sure to have children shouting out the answers in anticipation of turning the page. Youngsters often exhibit an insatiable appetite for adorable baby animals, and *Is Your Mama a Llama* provides plenty of fodder for fawning. Illustrator Steven Kellogg, however, manages to keep the pictures sweet without being saccharine. And rest assured, no matter how often your little one is compelled to kiss the critters, the sturdy board-book format will stand the test of time (and of course, slobber). (Ages 0 to 4)

PreSchool-Grade 1-- An enchanting animal guessing game for preschoolers. Lloyd, a baby llama, asks each of his friends, "Is your mama a llama?," and all respond in turn with a rhyming description of their mother that is answered on the following page. Young listeners will delight in the playful

rhythm of the text, and each riddle is sure to result in a resounding chorus of response. Kellogg's full-color illustrations of animals in their natural surroundings maintain their usual appeal and humor and will carry well to groups, while individual readers will be further rewarded by the subtlety and detail of the backgrounds. --Starr LaTronica, North Berkeley Library, CA Copyright 1989 Reed Business Information, Inc. --This text refers to the Library Binding edition.

I love this book. Probably my all time favorite book to read to my 6 month old. My son was in the nicu for 4 days and at one point I went to take a 2 hour nap and came back to find my husband reading him this book so this book is very special to us. As soon as we brought him home we ordered it. Cute story, love all the rhyming.

Such a cute book. Saw it at my brothers house and had to buy a copy for my son. Board book, which is great, and perfect size to hold for little hands. Just long enough without being too long. Gotta do the voices too. I find myself walking around work saying "is YOUR mama a llama

It is a great book, stimulate their thinking process. The pages are like a thick cardboard and silk, easy for my 16 month old to turn. I was happy about that don't have to worry about accidentally tearing the pages.

What's not to LOVE about this book?! Our kids loved it, and now our grandchild does! (Great for teaching rhyming skills.) Also, the book arrived quickly and in perfect condition. Very pleased with vendor!

This is such a fun book! It's a bit of a story, so there is more reading than many other board books (which is what we were looking for). It all rhymes, which is nice. And it includes animals that are not typically found in other books like a seal, a kangaroo, and a llama (of course). I think this gives more diversity when trying to teach the kid animal names.

I bought this book on the recommendation of a friend, and it is so cute! It has a lovely rhythm to it, which makes it fun to read and the pictures are adorable. Plus our little one loves it!

SUCH a touching a sweet story. One of our favorite children's books. I have this one memorized from reading it so many times to my kiddos!

MY GREAT GRANDAUGHTER LOVES THIS BOOK - SHE KEEPS WANTING TO REREAD IT
CONSTANTLY - SO I KNOW SHE APPROVES OF IT
