Customer Reviews

I bought this because I was reading it to my grandson at his house but this one is much larger than his. I didn't expect that. Nice overview of history though.

Excellent living book. We are all enjoying the narrative style. History comes alive. We are learning so much!

My middle school daughter loves all the Genevieve Foster history books. As a homeschooler free to choose her own curriculum, she says the Foster books are the only history books she will use. As her teacher/mom, I say they're all she needs for history.

A needed school book

This is absolutely the worst book ever. It jumps around too much and it does not make sense. It has

too many chapters. It is packed with too much detail. The book tries to tell everything that happened all over the world at a given time. This makes it too confusing to follow. What a waste of time. What a terrible way to tell the story of Abraham Lincoln's life.
