I am mainly posting this because the seller was prompt and I received the book as promised. The book itself is good, but it doesn't do a great job at explaining cases or what their meanings are in the scope of Administrative Law.

Needed this for school.

lot of good info. good quality book.

School use. It served its purpose. Received on time and it was in perfect shape as advertised. It was brand new.

The flimsiest paperback I've ever rented. I doubt it would last three semesters. All the words and pictures are there though so it gets three stars.

The book was good for the class I was taking, but it was a very difficult read if you are not pursuing law.

I was very excited to receive what appears to be a brand new book for the price of a used one. In addition, the product arrived two days after it shipped. Wish I could say that for some of the other book companies. I would recommend to everyone!
